The Convenient, Stress Free Alternative to Kenneling

We are H.L. and Laurence and of course our greyhound, Nasdaq. We have been pet sitting for approximately 4 ½ years and are licensed, insured and members of Pet Sitters International. Our ads may be found in the Naples (FL) Embarq phone book (pages 715 and 715), the Naples, (FL) Yellow Book (pages 491 and 602) and on the on-line directories.

We offer five types of services:

-PRIVATE ROOM BOARDING: We have dedicated two of our former bedrooms to our four legged clients. Each room is carpeted, has a sofa, color television, ceiling fan and is climate controlled as the rest of our home. We do not crate unless you do so we would ask you to bring the crate, we use baby gates. We only care for up to two families at a time. Each family gets its own private room. We also ask that you provide the food so there is no change to the pets' metabolism or digestive system. We live in a single family home on a cul-de-sac in a neighborhood made up of cul-de-sacs. Your pet receives numerous leash walks in addition to running/playing in our ¼ acre fenced in backyard. We administer medications/vitamins, etc., brush them and give lots of TLC to your pet.

-IN YOUR HOME-SLEEPOVERS: The sleepover goes from approximately 8pm to 6am the next morning. This service is best for the pet that gets anxious being away from home, likes to sleep with a two legged companion or has medical concerns and tends to do better in his own environment. Most of our clients supplement the sleepover with one or two visits during the course of the day.

-IN HOME VISITS: These visits include walks and or fenced in back yard let outs for running/playing at your home. We feed, give fresh water, and give medication(s) if required. We bring in the mail, take out the trash on designated days, water a few plants, add water to the pool and of course give lots of TLC to your pet(s). We put lights on at night and off by day. These types of things show neighbors and passers-by that there is activity at the home in your absence. We walk through the house looking for any “accidents” that have to be cleaned up or structural problems such as leaks after heavy rains. If there is a problem, we notify you or your designee. This service is used when you are at work, away for business or pleasure.

-TRANSPORT: If you are unable to take your pet to the vet or groomer, for example, we can pick up and or drop off for you.

-HOME WATCH: If you are gone for extended periods of time, we perform home watches where we walk around the exterior of the single family home, as well as each room in the home looking for problems, such as water accumulation/leaks, etc. We run dishwashers, as well check all the appliances for working order, flush and clean toilets, run the water in all the sinks/tubs and more.

We care for all types and breeds of pets, except snakes (we won't feed it, and if it gets out of its' tank, we won't look for it).

All of the brief narratives are generic in nature. Services are customized to fit your personal requirements and needs. Please contact us for more specific information, areas serviced, rates, and to schedule a complimentary meet and greet.

A Tail A Waggin' Pet Sitting and Boarding Services will make a donation to Homeward Bound Greyhounds with every boarding and sleepover reservation completed that is referred to us by HBG or the HBG web site.
